

Changes to Search New Works online system

From January 2010 we are introducing a new system, ICE, to manage copyright data. ICE has been designed in partnership with the Swedish collecting society STIM and uses the latest technology to enable us to manage global copyright data. Our existing systems are over 20 years old and the introduction of ICE will provide major improvements to the speed, quality and transparency of copyright registration at *PRS for Music*. You can find out more about the new ICE system at the [ICE Help Centre](#).

Ahead of the launch of ICE, we need to **make changes to the Search New Works online system**. Attached is an FAQ to answer your questions.

INVESTOR IN PEOPLE

There is one minor change to the “Search New Works” (NWR) online system. This relates to the “provisional claim” option within Search New Works. In order to make the data in ICE more authoritative, and to enable us to maximise revenue from UK as well as overseas sales the provisional claim option within Search New Works will be replaced with an option to submit a full registration using the new enhanced OLR form.

Registrations submitted by using this method will be prioritised as the works will be active and processed before the invoicing deadline for the particular usage. New un-notified works will continue to be loaded onto Search New Works during the data freeze in December, and as per previous communications, any registrations received during the data freeze period will be stored and updated post go-live in January.

Before – Provisional Claim option available on Claim Detail screen

New Works Research Claim Detail			
Tunecode	9753911E	CAE Number	87018701
Work Title(s)	SO LET THERE BE LOVE	CAE Name	MUSIC PUBLISHING LTD
Date Created	12/11/2009	Response Status	Waiting Reply
Date Modified	12/11/2009	Usage Activity	Physical Product
