Account number format in Poland
IBAN
In the Polish banking sector, a bank account number in IBAN format consists of the 2-letter country code
for Poland: PL, followed by the account number in NRB* format).
* In the Polish banking sector, the IBAN number is composed of 28 alphanumeric characters and is constructed by inserting the country code PL before the NRB number (Polish abbreviation for Bank Account Number), as a result of which the following format is generated:
PL00111111112222222222222222222222222222
Soft code
Currency the account is held in ( If left blank local currency will be used)
I wish the payment to be paid by direct deposit to the account noted above.
