

Core Collective

Get paid more. Faster.

If you're an independent publisher interested in maximising your online royalties... you need to join our Core Collective.

The Core Collective is a service from *PRS for Music* for independent publishers. Joining the Core Collective provides you with *PRS for Music's* first-class customer service and access to ICE's multi-territory online licensing – the perfect combination.

Why Core Collective?

Traditionally, each local society licenses rights in the same work to the same digital service provider (DSP), but only for its respective territory.

Royalty accounting and statement frequency vary depending on each local society's own licence deals and distribution policies.

Royalties pass through each local society and sub-publisher before they are distributed to you.

Joining the Core Collective changes that.

We provide you with access to ICE's multi-territory online licensing, which makes your rightsflow simple and more cost-effective. This means faster payments and fewer deductions than in a traditional rightsflow scenario.

Expert knowledge
Detailed reporting
Outstanding customer support

Andrea Czapary Martin
CEO, *PRS for Music*

“ As a Core Collective member, you will gain access to one-stop licensing and direct distribution of your online music royalties from across the world.

Our experienced team will ensure your rights are safe and represented fairly. Join us and benefit from our fast, transparent, best-in-class service and support. ”

One core licence
