# How to Search Counterclaims as a Publisher?

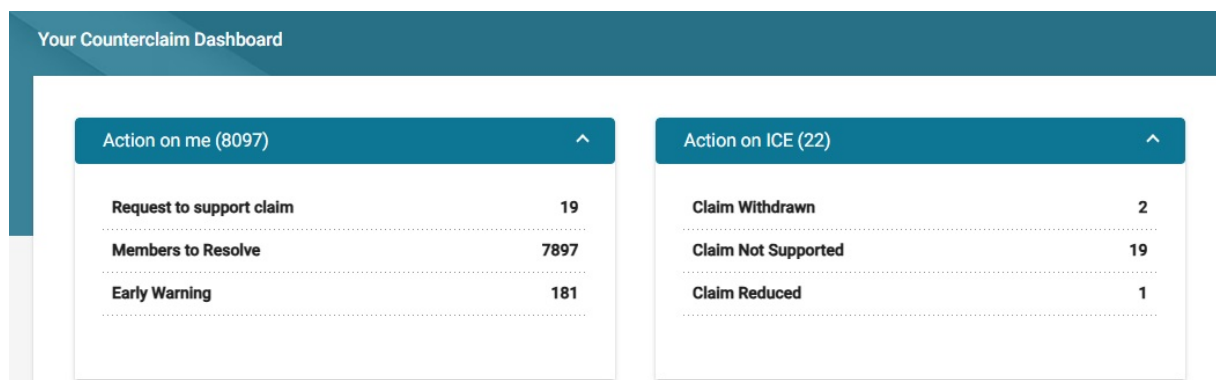

## Counterclaim Dashboard Publisher - Counterclaim Search

The guide is based on the **Publisher (top IPI / parent IPI) - Counterclaim** user role.

Upon logging in to CUBE, the counterclaim **Dashboard** is displayed under the **Conflicts** section. Counterclaim Dashboard provides an overview of all the account claim actions where the publisher is involved as a **Resolver**.

At the top of the screen, **Actions** are sorted into 2 categories:

- **Action on me**
- **Action on ICE**

Your Counterclaim Dashboard	
<b>Action on me (8097)</b>	<b>Action on ICE (22)</b>
Request to support claim 19	Claim Withdrawn 2
Members to Resolve 7897	Claim Not Supported 19
Early Warning 181	Claim Reduced 1

These 6 actions types can easily be searched using the **Quick Filters** field at the top of the Counterclaim List. See [Quick Filters](#) below.

### Action on me

The category *Action on me* contains a list of **Request support claim** actions, **Members to resolve** actions and **Early Warning** actions. These are the actions that belong to the Resolver.

**Request to support claim** actions refer to counterclaims in **AWAITING REPLY** and **SUPPORTED** status. This means that the publisher must take action on these conflicts before the specified deadline. If the deadline is missed, claims will be marked as not supported and removed.

Your Counterclaim Dashboard	
Action on me (8097)	
Request to support claim	19
Members to Resolve	7897
Early Warning	181
Action on ICE (22)	
Claim Withdrawn	2
Claim Not Supported	19
Claim Reduced	1

**Members to resolve** actions refer to counterclaims in **CONFIRMED** status. This means that the publisher can take action on these conflicts anytime, as there is *no deadline*. You will have an overview of all your counterclaims across all of the ICE customers. This will account for the increased number of counterclaims in the status "Members to resolve".

Your Counterclaim Dashboard	
Action on me (8097)	
Request to support claim	19
Members to Resolve	7897
Early Warning	181
Action on ICE (22)	
Claim Withdrawn	2
Claim Not Supported	19
Claim Reduced	1

**Early Warning** actions refers to counterclaims where the Resolver (of the First Claimant) is not yet required to support a claim, but they receive an "early warning" to alert them that their claim is in counterclaim. The publisher is able to manage 'Early Warning' actions by supporting, withdrawing or reducing claim. There is no deadline on 'Early Warning' actions, but if the other Resolver (of the New Claimant) supports claim the 'Early Warning' action will transition to a 'Request to support claim' action and receive 60 days deadline.

Your Counterclaim Dashboard	
Action on me (8097)	
Request to support claim	19
Members to Resolve	7897
Early Warning	181
Action on ICE (22)	
Claim Withdrawn	2
Claim Not Supported	19
Claim Reduced	1

## Action on ICE

The second category, Action on ICE, contains actions where the Resolver has already responded to the counterclaim, either by withdrawing, reducing or not supporting their claim (missed deadline). **ICE is responsible for managing these actions.**

For **Claim withdrawn**, **Claim not supported**, and **Claim Reduced**, Publisher users do not need to take action on these conflicts as they have already been responded to. There is *no deadline* on the publisher, but there is an internal processing *deadline on ICE*.

Your Counterclaim Dashboard	
Action on me (8097)	
Request to support claim	19
Members to Resolve	7897
Early Warning	181
Action on ICE (22)	
Claim Withdrawn	2
Claim Not Supported	19
Claim Reduced	1

## Quick Filters

You can quickly a list of claim that have one of these 6 Action Types by using the drop down menu Quick Filters:

- Request to support claim
- Members to Resolve
- Claim Withdrawn
- Claim Not supported
- Claim Reduced
- Early warning

1. Open the Quick Filters drop-down

The screenshot shows the 'Counterclaim List (27835)' interface. At the top, there are several filter fields: 'Work key / Cross Reference ID', 'Counterclaim ID', 'Work Title', 'Resolution Owner', 'CounterClaim Type', and 'CounterClaim Status'. Below these, there are more filters: 'Action Type', 'Action Status', 'Action Owner', 'Creation Date', 'Action deadline from', and 'Action deadline to'. A 'Quick Filters' dropdown menu is highlighted with a yellow box. Below the dropdown, there are 'Reset' and 'Apply Filter' buttons. At the bottom, there is a row of icons for various filters: Work key, Work Original Title, Counterclaim ID, Counterclaim Status, Deadline, Action (type), Response, Action Status, Action Owner, Resolution Owner, Scope, Type, Creation Date, and Action Id.

2. Select one of the Action Types (scroll if needed)

The screenshot shows the 'Quick Filters' dropdown menu. The menu is open, displaying a list of Action Types: 'Request to Support Claim', 'Members to Resolve', 'Claim Withdrawn', 'Claim Not Supported', 'Claim Reduced', and 'Early Warning'. The 'Request to Support Claim' option is highlighted.

3. The filters will be shown in the relevant fields. Additionally, you can use any other field to filter down your research even further.

**Good to know**

By default, the action status will is set to Open.

The screenshot shows the 'Counterclaim List (9223)' interface. The 'Quick Filters' dropdown menu is now closed, and the filters are applied. The 'Action Type' field is set to 'Request to support claim', and the 'Action Status' field is set to 'Open'. The 'Counterclaim Status' field is set to 'Awaiting Reply/Supported (+1 other)'. The 'Reset' and 'Apply Filter' buttons are visible. At the bottom, there is a row of icons for various filters: Work key, Work Original Title, Counterclaim ID, Counterclaim Status, Deadline, Action (type), Response, Action Status, Action Owner, Resolution Owner, Scope, Type, Creation Date, and Action Id.

4. Hit the blue button Apply Filter

5. Once you've applied your filters you can share the results by copying and sending the URL of your browser.

# Search Filters

You can search Counterclaims by using one or more of the following fields (also known as Counterclaim Attributes).

Field	Description
Work Key	You can enter a <b>ICE Work Key, Titles, Xrefs, or Alliance Tunecode</b> to search for actions on a specific work
Work Original Title	You can enter a <b>Work Original Title</b> to search for actions that are linked to a specific counterclaim
Counterclaim ID	You can enter a <b>Counterclaim ID</b> to search for actions that are linked to a specific counterclaim
Resolution Owner	You can select a society to search for actions where the society is Resolution Owner. These values are available: <b>Blank all Societies, BUMA (023), KODA (040), PRS (052), SABAM (055), STIM (079), TEOSTO (089), TONO (090)</b>
Counterclaim Type	You can search for actions with a specific counterclaim type. These values are available: <b>Blank (all types), Author share claim, Authorship claim, Ownership claim, Original claim, Sample claim, Infringement claim, No agreement claim, Breach of contract claim</b>
Counterclaim Status	You can search for actions with a specific counterclaim status. These values are available: <b>Blank (all statuses), Awaiting Reply, Confirmed, Resolved, Supported</b>
Action Type	You can search for actions with a specific status. These values are available: <b>Blank (all statuses), Closed, Open</b>
Action Status	You can search by Action Status ( <b>Open, Closed, Expired</b> ). Note: An Expired action can occur if the action type is 'Claim Withdrawn', 'Claim Not Supported' or 'Claim Reduced' and ICE (who is action owner) did not close the actions within SLA.

<b>Action Owner</b>	You can enter an <b>IPI Name Number</b> or " <b>ICE</b> " to search for actions belonging to a specific Action Owner. Message displayed when you hover over info icon: " <b>Enter ICE or an IPI Name Number</b> "
<b>Creation Date</b>	You can enter a date ( <b>YYYY-MM-DD</b> ) or select a date from calendar to search for counterclaims that were created on the given date.
<b>Action Deadline from and Action Deadline to</b>	These fields allow the user to search for counterclaim actions based on deadlines:
	* If no deadline date is entered, then any action is returned independent if it has a Deadline date assigned or not.
	* If <b>Action Deadline From</b> is entered, then any action is returned if it has a deadline on the given date or later.
	* If <b>Action Deadline to</b> is entered, then any action is returned if it has a deadline on the given date or before.
	* If <b>Action Deadline from</b> and <b>Action Deadline to</b> is entered then any action is returned if it has a deadline between the given date range.
<b>Quick Filters</b>	<p>Select one of the pre-defined filters from for the Counterclaim Actions:</p> <ul style="list-style-type: none"> <li>• Request to Support claim</li> <li>• Members to Resolve</li> <li>• Claim Withdrawn</li> <li>• Claim Not Supported</li> <li>• Claim Reduced</li> <li>• Early warning</li> </ul> <p>These filters can be completed with any other field.</p>

<b>Creator Name</b>	You can find counterclaims on works that include a specific creator (the creator may or may not be a participant on the counterclaim) using its <b>Creator Name</b> or <b>Creator IPI Name Number</b> .
<b>Creator IPI Name Number</b>	
<b>Publisher name</b>	You can find counterclaims on works that include a specific publisher (the publisher may or may not be a participant on the counterclaim) using its <b>Publisher Name</b> or <b>Publisher IPI Name Number</b> .
<b>Publisher IPI Name Number</b>	
<b>Reset</b>	When you click on this button, the system will reset the filter settings to default (all Blank)
<b>Apply filter</b>	When you click on this button, the system will carry out a search with the selected search input.

5. You can enter an **ICE Work Key** or any other work reference like **Alliance Tunecode** or **ISWC** to search for actions on a specific work.

Counterclaim List (1)

Work key / Cross Reference ID: 6463653

Counterclaim ID: Work Title: Resolution Owner: CounterClaim Type: CounterClaim Status:

Action Type: Action Status: Action Owner: Creation Date: Action deadline from: Action deadline to:

The **counterclaim details** page will open in the new tab.

If you opened the CC Details on the same tab, use the Return button of your browser, the filters are still applied.

## Open Work from Counterclaim Details

From the CC Details view, you can click on the button “Open work” in the header to navigate to the Work details.

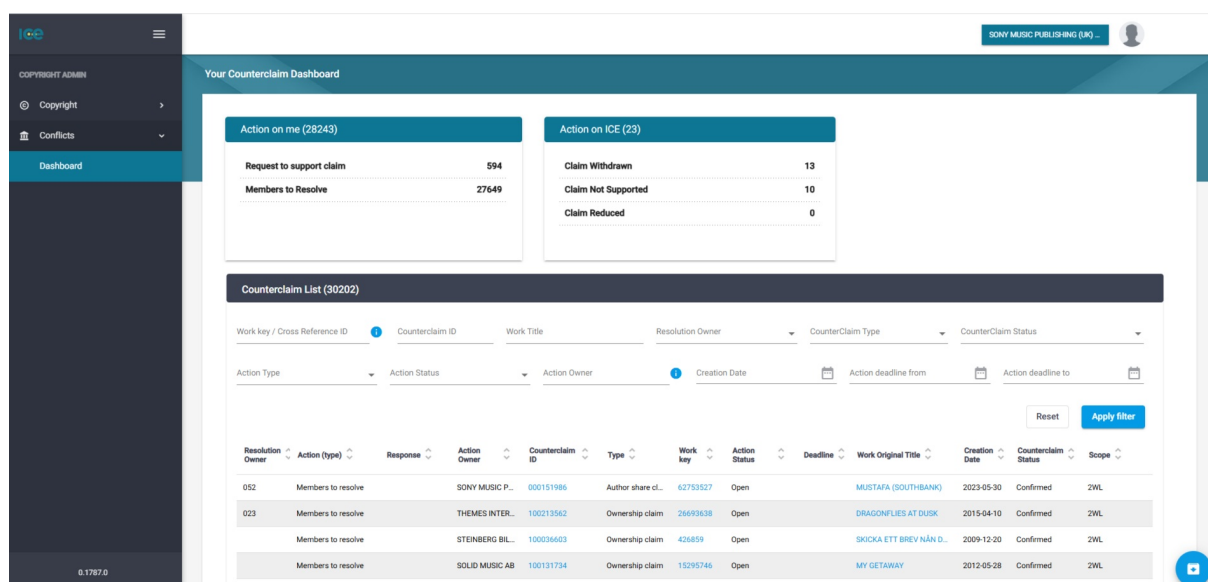

# How to Export Counterclaim Actions?

This article answers the question: How to use the Export feature in Counterclaim Dashboard to export counterclaim actions as Publisher/Society user?

In the 'Counterclaim Dashboard' screen, Society users and as well as Publishers users can search for counterclaim actions and then export the search result into a CSV or Excel file.

To do so:

1. Go to the the main Dashboard page

2. Select your search filter settings and click on “Apply Filter” button (see [How to Search Counterclaims as a Publisher?](#))

## Note

In this example, we are applying a filter for counterclaim actions where the type is “Request to Support claim”, status is “Open” and deadline from “2025-05-01” to “2025-05-31”. This filter matches 437 counterclaim actions.

**Your Counterclaim Dashboard**

**Action on me (28243)**

Request to support claim	594
Members to Resolve	27649

**Action on ICE (23)**

Claim Withdrawn	13
Claim Not Supported	10
Claim Reduced	0

**Counterclaim List (437)**

Work key / Cross Reference ID: 1 Counterclaim ID: Work Title: Resolution Owner: CounterClaim Type: CounterClaim Status:

- Once you have selected at least 1 counterclaim action, the “Export” button becomes available again. Click on the “Export” button

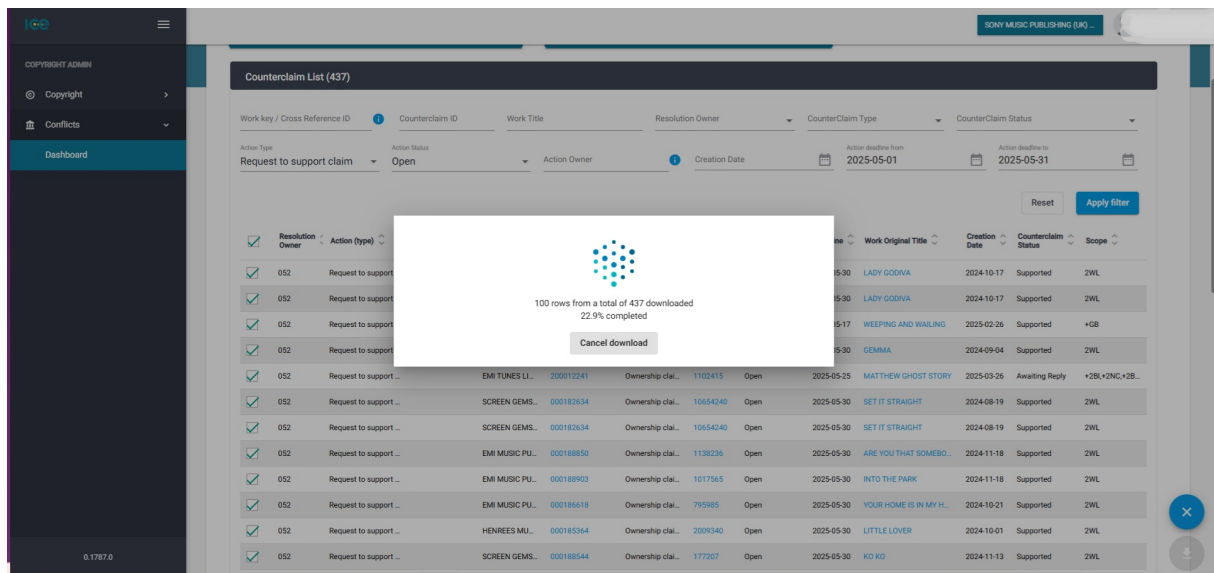

The screenshot shows the Copyright Admin interface. On the left is a sidebar with 'COPYRIGHT ADMIN', 'Copyright', 'Conflicts', and 'Dashboard'. The main area displays the 'Counterclaim List (437)'. At the top, there are filters for 'Work key / Cross Reference ID', 'Counterclaim ID', 'Work Title', 'Resolution Owner', 'CounterClaim Type', and 'CounterClaim Status'. Below these are filters for 'Action Type' (Request to support claim), 'Action Status' (Open), 'Action Owner', 'Creation Date' (2025-05-01), and 'Action deadline to' (2025-05-31). A table lists 15 counterclaim actions with columns for Resolution Owner, Action (type), Response, Action Owner, Counterclaim ID, Type, Work key, Action Status, Deadline, Work Original Title, Creation Date, Counterclaim Status, and Scope. The 'Export' button is highlighted in a green box at the bottom right of the table.

- Select the type of file you want to create (csv or xlsx)

This screenshot is identical to the previous one, showing the Copyright Admin interface with the 'Counterclaim List (437)'. The 'Export' button is highlighted in a green box. A pop-up menu is visible at the bottom right, showing two options: 'Export to csv' and 'Export to xlsx', both of which are highlighted in a green box.

- A pop-up screen will appear which shows the progress of the report creation. The time it takes to complete depends on how large the file is but should generally complete within minutes.

- When the report is finished, you can download it directly from your browser. The report will contain the same columns and data as you can see in the Counterclaim UI.

## FAQ

### Why is the “Export” button disabled?

Firstly, make sure that your search filters are correct and at least 1 matching result is displayed. If no results matches the search criteria, the “Export” button is disabled.

Make sure to select at least 1 counterclaim action from the list. If no row is selected from the search result list, the “Export” button is disabled.

### **I want to export a very large list of counterclaim actions, but the limit is 10 000?**

In the legacy PRS Counterclaim portal, the user was limited to exporting only 250 items. In Cube, the limit has been increased to 10 000 items.

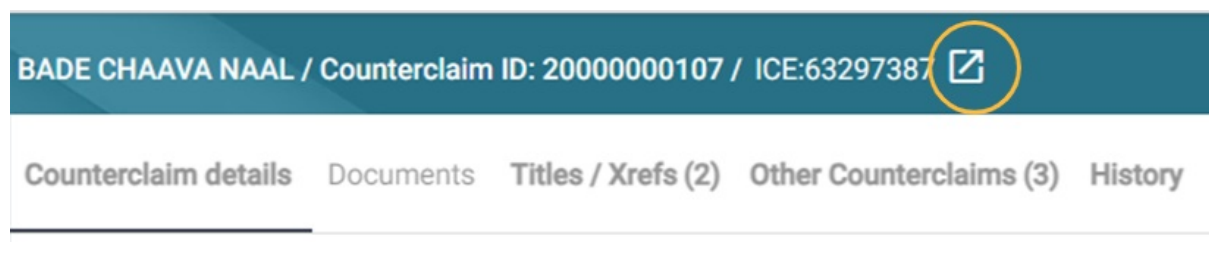

If you are a Publisher user, please contact your society if you need a counterclaim report which is larger than 10 000, so that they can request a customised report directly from ICE.

# View Counterclaim Details as a Publisher

## CC Details Overview

In the header of the screen up here, the user can always see the **original title**, the **counterclaim ID**, and the **ICE work key** that the counterclaim is linked to. Click on the button “Open work” in the header to navigate to the Work details.

There are five tabs that can be viewed once a counterclaim is open. These are:

- Counterclaim details
- Documents
- Titles/Xrefs
- Other counterclaims
- History

## Counterclaim Details

The first is the **Counterclaim details** tab and this is the most important screen where you will be able to see key information about the counterclaim, and it is the also the starting page from where you will [manage the counterclaims](#).

## Note

Resolve Counterclaim button is disabled for Publisher and Society users.  
This update can only be done by ICE user

At the top of the counterclaim details, there's also information about the counterclaim type. In this example, it's **Ownership**.

Type: OWNERSHIP Point of Conflict: WRITER AND ORIGINAL PUBLISHER Status: AWAITING REPLY Creation Date: 2025-06-20

Only Include Conflicts: Yes Resolution Owner(s): 052 Territory Scope: +2WL Usage Date Scope: 2025-06-20

You can also see the point of conflict, and counterclaim status, and this only shows the current status which in this example is **Awaiting Reply**.

Type: OWNERSHIP Point of Conflict: WRITER AND ORIGINAL PUBLISHER Status: AWAITING REPLY Creation Date: 2025-06-20

Only Include Conflicts: Yes Resolution Owner(s): 052 Territory Scope: +2WL Usage Date Scope: 2025-06-20

You can also see the **Creation date** of the counterclaim and who is/are the **resolution owner(s)** of the counterclaim. In this example PRS is the resolution owner.

Type OWNERSHIP	Point of Conflict WRITER AND ORIGINAL PUBLISHER	Status AWAITING REPLY	Creation Date 2025-06-20
Only include Conflicts Yes	Resolution Owner(s) 052	Territory Scope +2WL	Usage Date Scope 2025-06-20

The territories that are involved in the claim are shown.

Type OWNERSHIP	Point of Conflict WRITER AND ORIGINAL PUBLISHER	Status AWAITING REPLY	Creation Date 2025-06-20
Only include Conflicts Yes	Resolution Owner(s) 052	Territory Scope +2WL	Usage Date Scope 2025-06-20

## Filter Claims

You can apply filters to narrow down the Claims. The available filters are **Territory** and **Usage date**.

## Parties, Actions and Claims

The **Counterclaim Parties, Actions and Claims** contains a table of all the claimants and resolvers in the counterclaim. Which includes the actions and claims that belong to them.

Expand all

Counterclaim Parties, Actions and Claims

Relation	Role	Name	IPI Name no.	Resolution Owner	Action	Response	Deadline	Status	Info
First claimant	C	Creator							
	E	Publisher A				Early Warning			
Resolver	SE	Sub Publisher		052	Early Warning			Open	
New claimant / Resolver	C	Creator							
	E	Publisher B		052	Request to support claim		2024-01-23	Open	

The first column shows the '**Relation**' which shows whether they are a claimant or a resolver.

In some cases IPs can both be the claimant and resolver and therefore displayed on the same row. But if they're not the same IP, they will be typically displayed on two separate rows.

# How to Manage a Counterclaim at Publisher Level?

## Supporting, Reducing and Withdrawing a Claim (as a Publisher)

### Support Claim

1. A newly created Counterclaim between publishers, i.e. where the type is **Ownership**, will usually have initial status **Awaiting Reply**. This means all **Resolvers** have been notified, and the Resolver linked to the **New Claimant** has action **Request to support claim** and is required to supply **Supporting Documentation** within **60 calendar days**. The Resolver who is linked to the **First Claimant** receives an **Early Warning**.

The screenshot displays the CUBE UI for a Counterclaim. The top navigation bar shows the URL: [cubeui.preview.cube.iceaccess.com/conflicts/counter-claims/CUBE:200007109/details](http://cubeui.preview.cube.iceaccess.com/conflicts/counter-claims/CUBE:200007109/details). The main content area is titled 'Counterclaim details' and includes tabs for 'Documents', 'Titles / Xrefs (4)', and 'Other Counterclaims'. The 'Counterclaim details' tab is selected, showing the following information:

- Type: OWNERSHIP
- Point of Conflict: WRITER AND ORIGINAL PUBLISHER
- Creation Date: 2025-03-27
- Only include Conflicts: Yes
- Resolution Owner: 052
- Resolution Owner: +2WEL
- Status: AWAITING REPLY

Below this information is a table titled 'Counterclaim Parties, Actions and Claims' with the following columns: Relation, Role, Name, SP Name, Resolution Owner, Action, Response, Deadline, Status, and Info. The table contains two rows:

Relation	Role	Name	SP Name	Resolution Owner	Action	Response	Deadline	Status	Info
New claimant	CA	Creator A Publisher A Sub Pub A		052	Request to support claim	Awaiting Reply	2025-05-26	Open	
First claimant	CA	Creator B Publisher B Sub Pub B		052	Early Warning	Early Warning		Open	

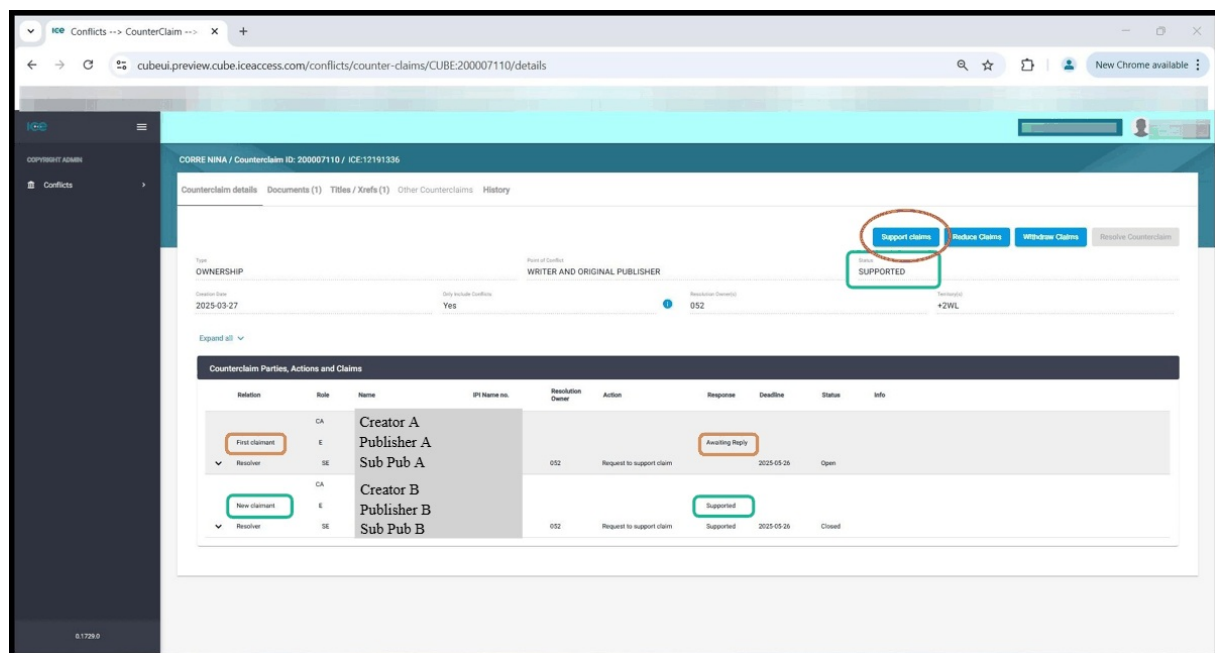

2. When the **New Claimant Resolver** has supplied **Supporting Documentation**, the Counterclaim Status changes to **Supported**. The response status and action status are also updated to show that their action has been closed.

Now, the **First Claimant Resolver** is notified and their response is awaited. Their action has been updated from **Early Warning** to **Request to support claim** to show that it is their turn to supply **Supporting Documentation** within **60 calendar days**.

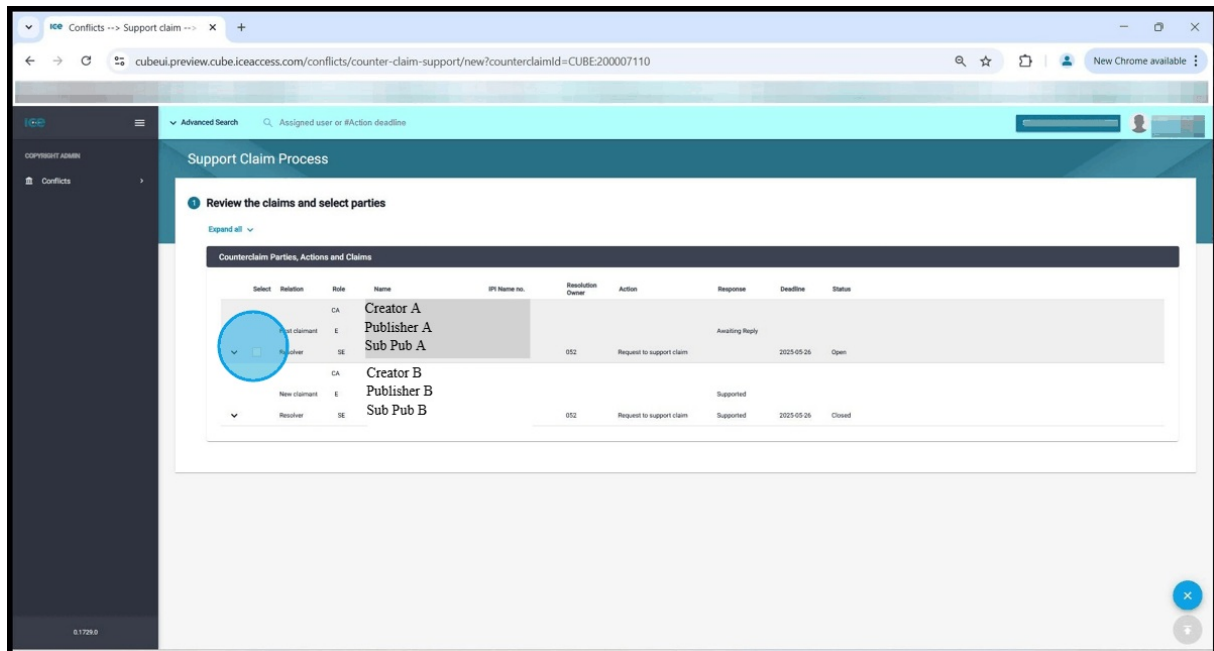

In order to support the claim, the **First Claimant** needs to click on **Support Claims** button.

### Support Claim Button Disabled

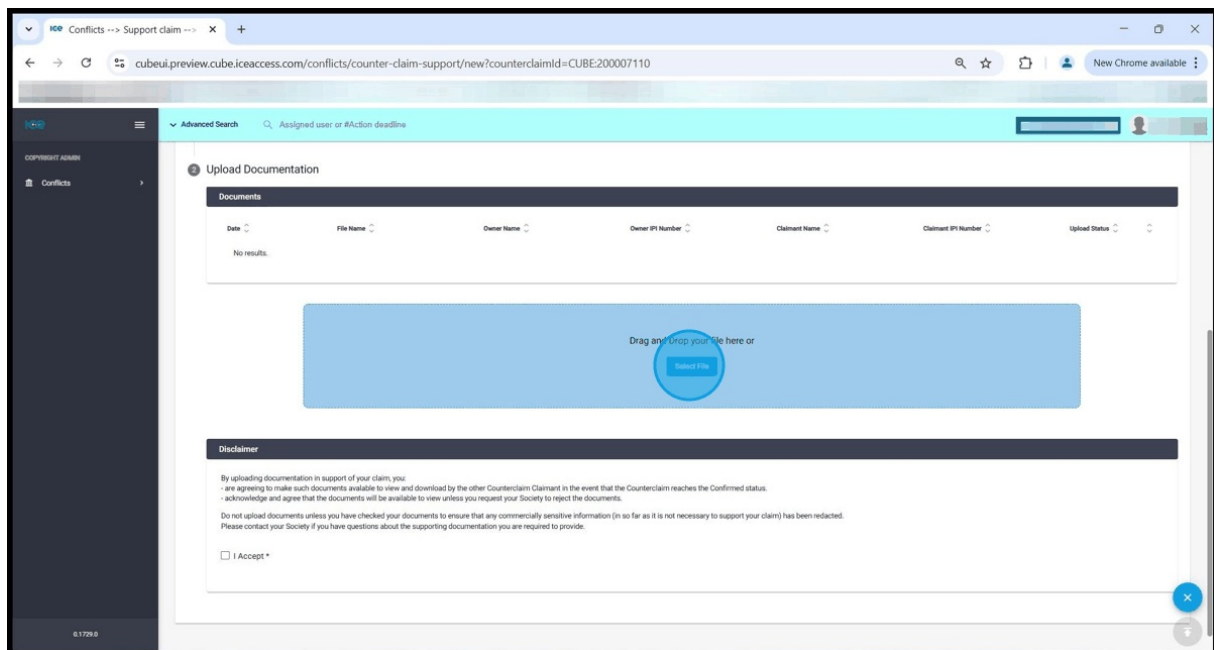

To ensure it is clear for a user when they can support a claim, the Support Claim button is only available when relevant. The button will be disabled when the Counterclaim **Status = Resolved** or all current Resolver actions are set to “Members to Resolve”.

3. The user is taken to the Support Claim Process page, and needs to tick the box of the claim that they wish to support. The user only has permission to select and support claims within their scope of control.

- After ticking the box for the selected claim, the user needs to scroll down the page and either drag and drop the supporting documentation file or upload it via the select file option.

- The user can double check the upload details below the documents section before the file is saved in the portal. After making sure the claim supporting action is correct, the user must accept the disclaimer terms.

### Disclaimer

By uploading documentation in support of your claim, you  
- are agreeing to make such documents available to view and download by the other Counterclaim Claimant in the event that the Counterclaim reaches the Confirmed status,  
- acknowledge and agree that the documents will be available to view unless you request your Society to retract the documents.  
Do not upload documents unless you have checked your documents to ensure that any commercially sensitive information (in so far as it is not necessary to support your claim) has been redacted.  
Please contact your Society if you have questions about the supporting documentation you are required to provide.

☒ I Accept \*

You have accepted the Disclaimer Terms

- The user will receive a pop-up confirmation of successfully supported claim(s).

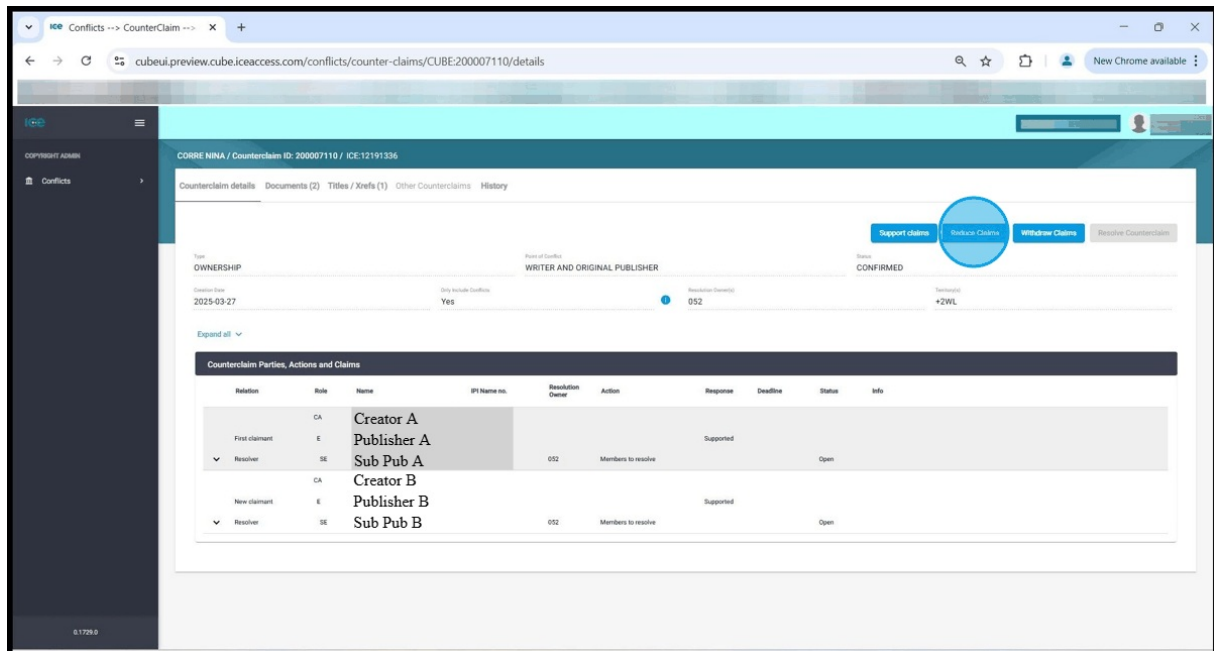

8. Once the **Supporting Documentation** requirements have been met by all parties (**First Claimant** and **New Claimant**), the status of the Counterclaim changes to **Confirmed**. Involved parties are advised to resolve the dispute.

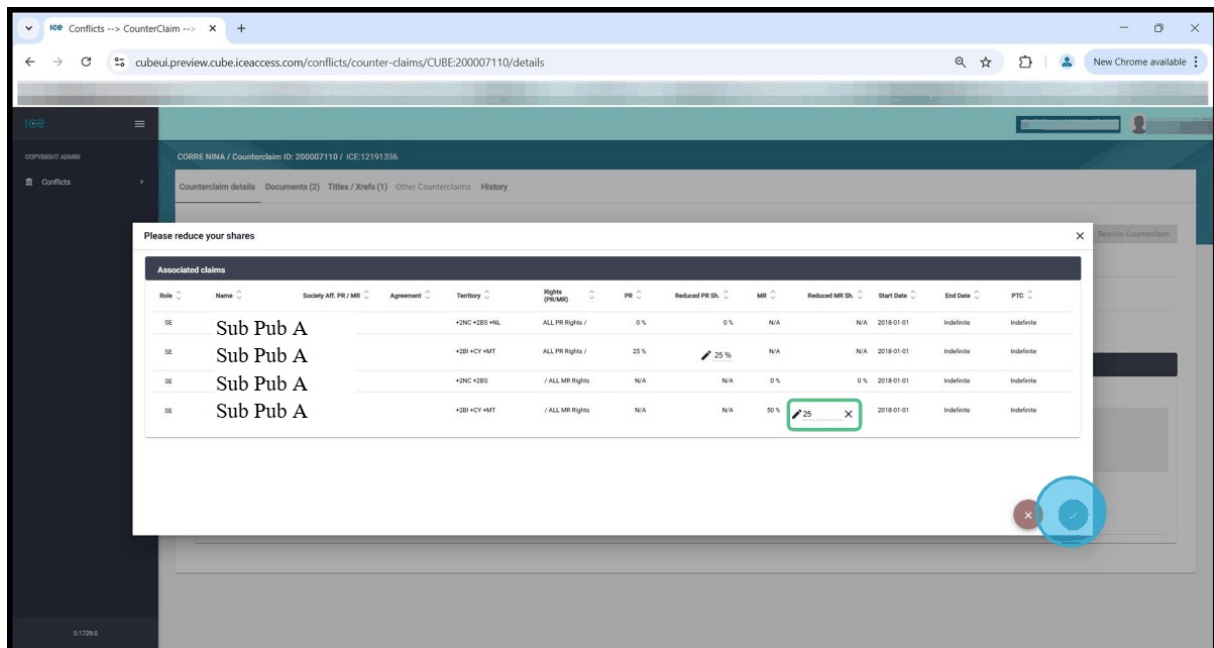

## Reduce Claim

9. Users can reduce their claims by clicking on the **Reduce Claims** Button.

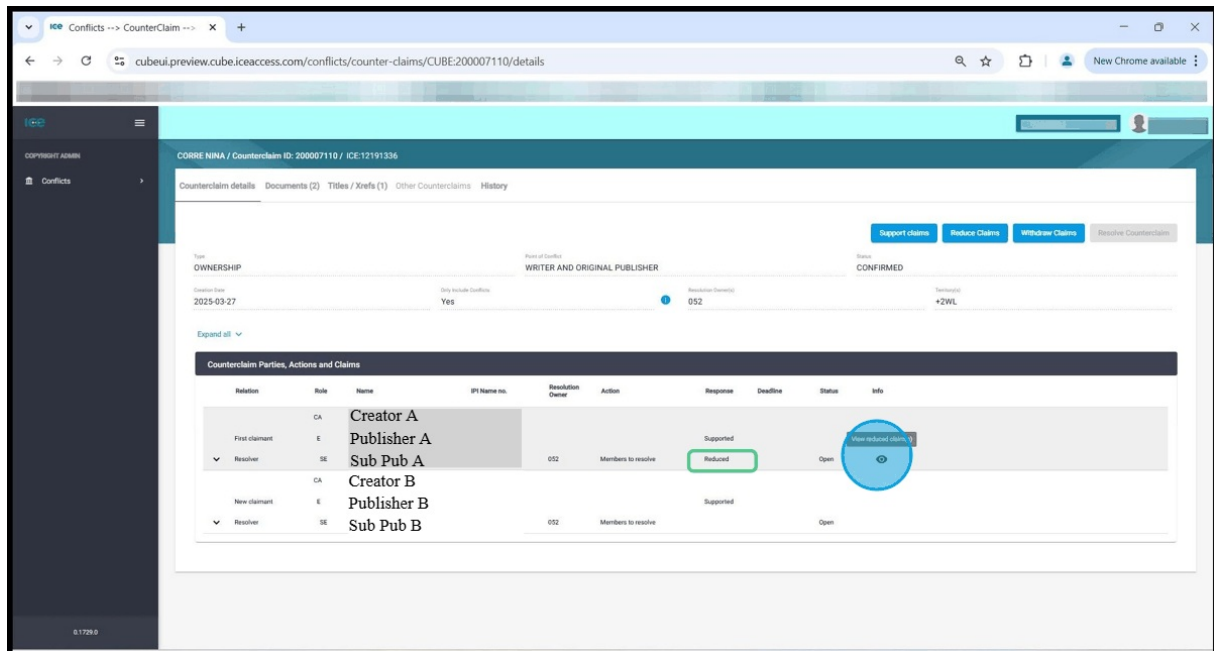

10. A pop-up window with detailed claim information will guide the user to edit shares in fields marked with a pencil symbol. The user can amend either only selected or all editable shares. The user only has permission to reduce shares that are involved in the counterclaim and within their scope of control.

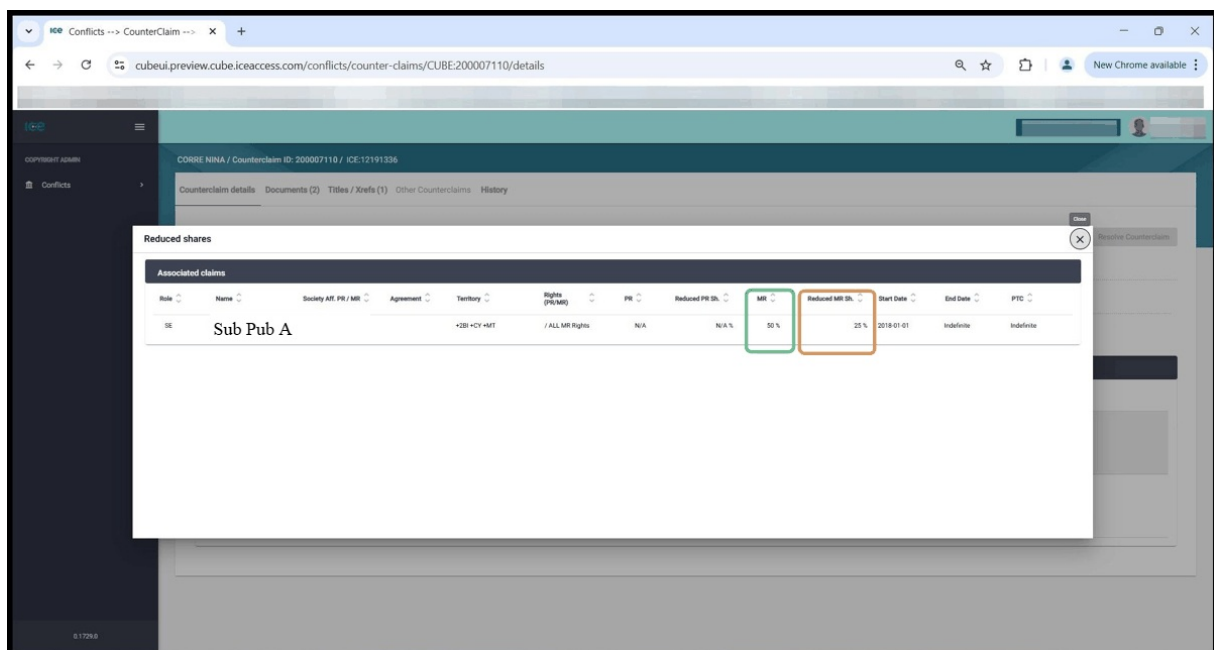

Once the changes are saved, ICE receives request to apply the share changes to the work. Until the ICE copyright team completes the request, no immediate changes to the work will be visible.

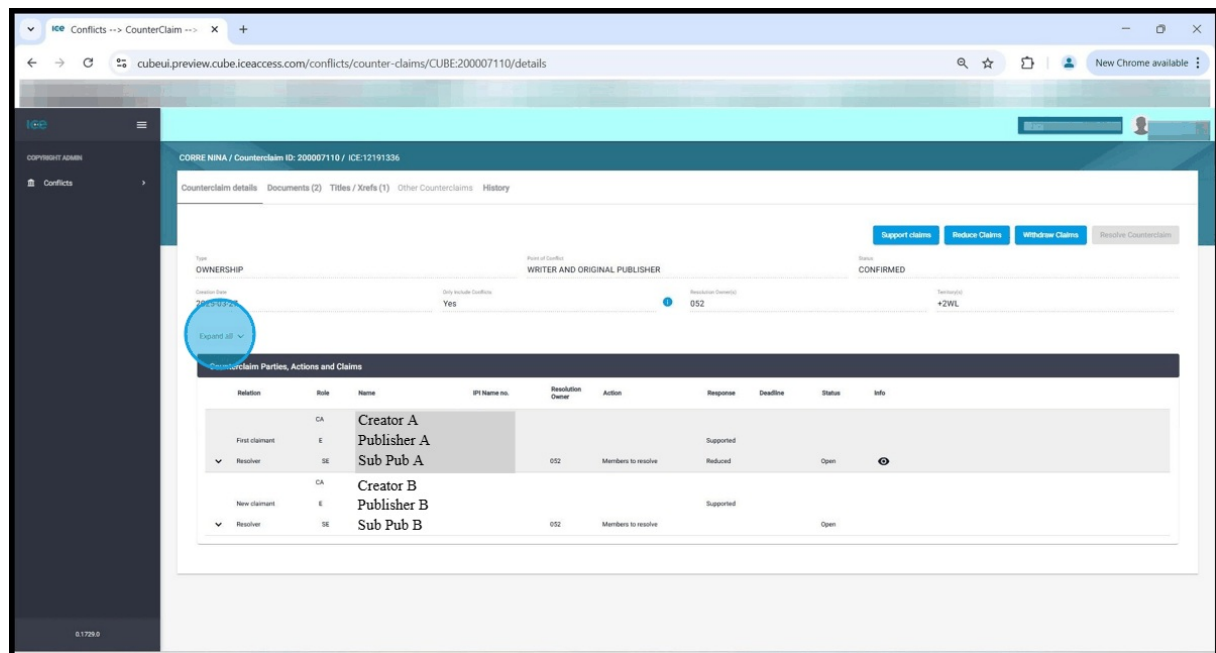

11. The requested share amendment is available under the eye icon in Counterclaim Details.

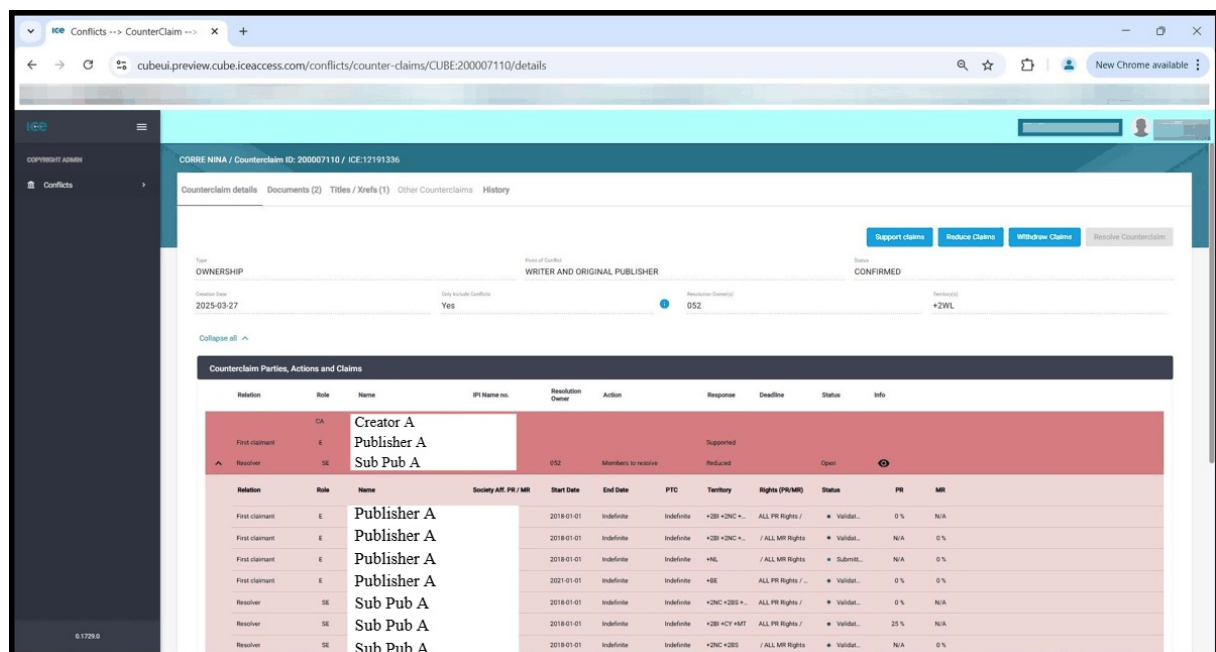

12. Clicking on the eye icon allows the user to see the current shares and the requested share amendment in a pop-up window.

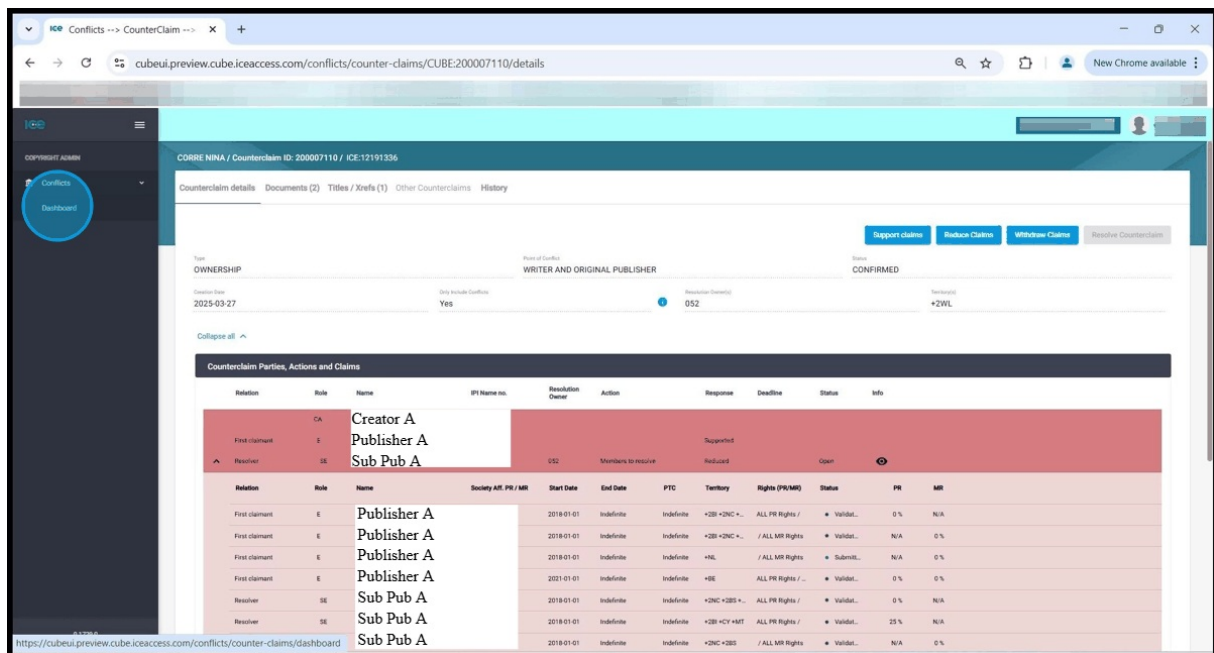

13. The user can also see the Counterclaim shares by Expanding All items in the Counterclaim Details.

14. The Expand All view provides additional information like claim status, dates or territories.

15. Navigating back to the Dashboard will allow the user to check the amendment requests that were sent to ICE.

16. Action on ICE section lists change requests by type (Claim Withdrawn, Claim not Supported, Claim Reduced). E.g. You can see all Members to Resolve action requests by selecting the right Quick Filter (see [How to Search Counterclaims as a Publisher?](#)), the Counterclaim List will display all CCIDs with this type of action. You can navigate to each CCID for more details (middle click to open in a new tab).

## Withdraw Claim

18. To withdraw the claim, the user needs to click on the Withdraw Claim button.

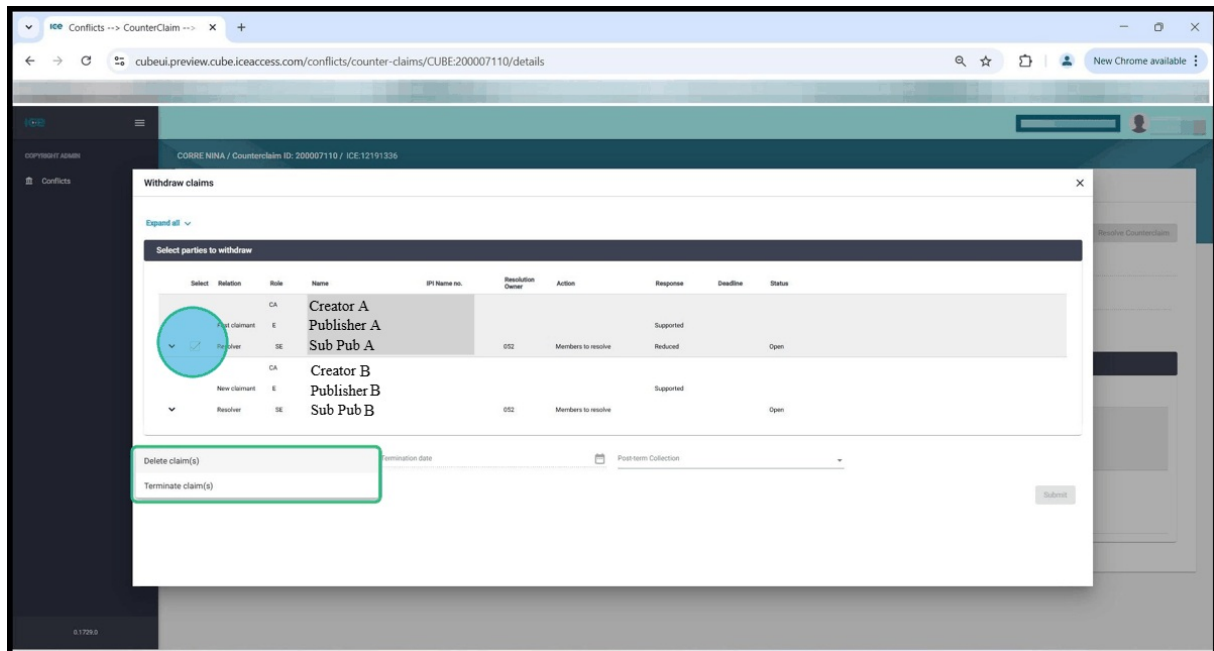

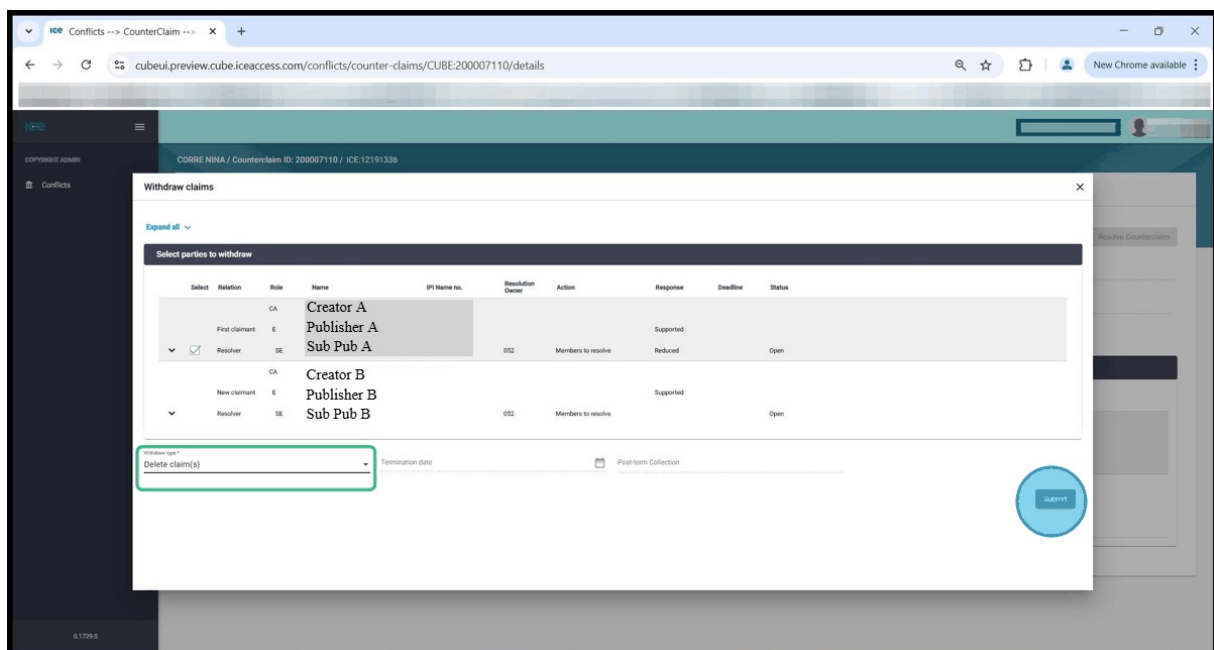

19. The user is taken to the Withdraw Claim Process page, and needs to tick the box of the claim that they wish to withdraw. The user only has permission to select and withdraw claims within their scope of control.

20. Once the claim is selected, the user has to choose if the claim needs to be deleted or terminated.

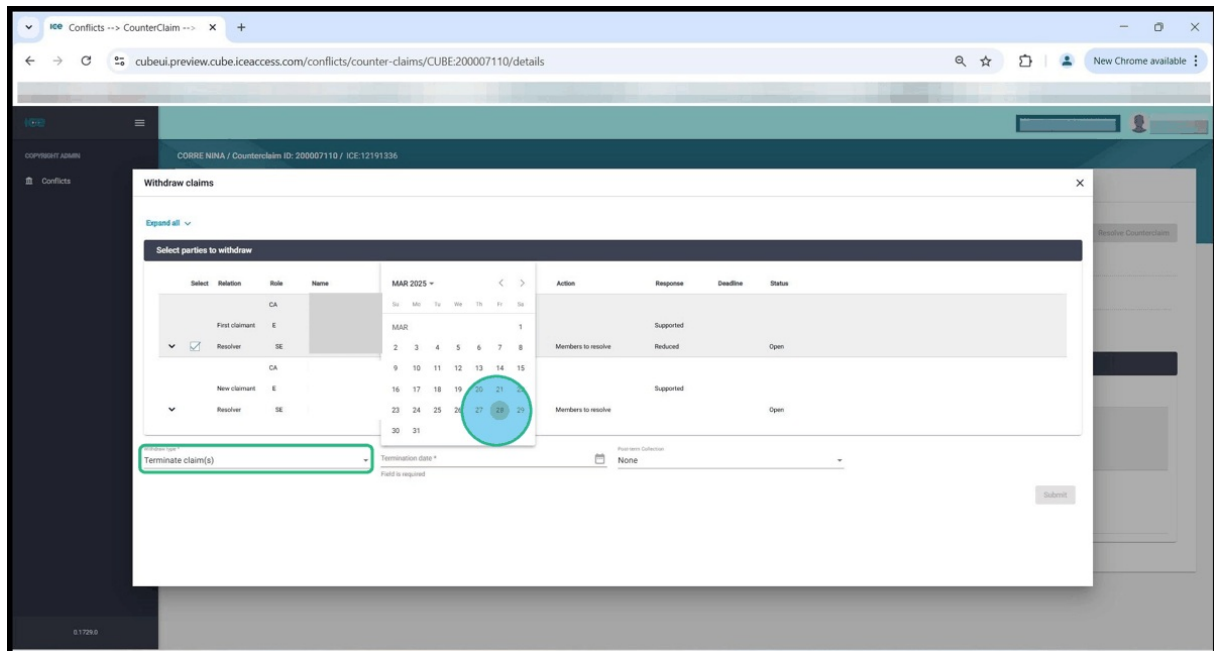

21. If the user selects the option to delete claim(s), ICE will receive a request to remove the claim(s) from the work.

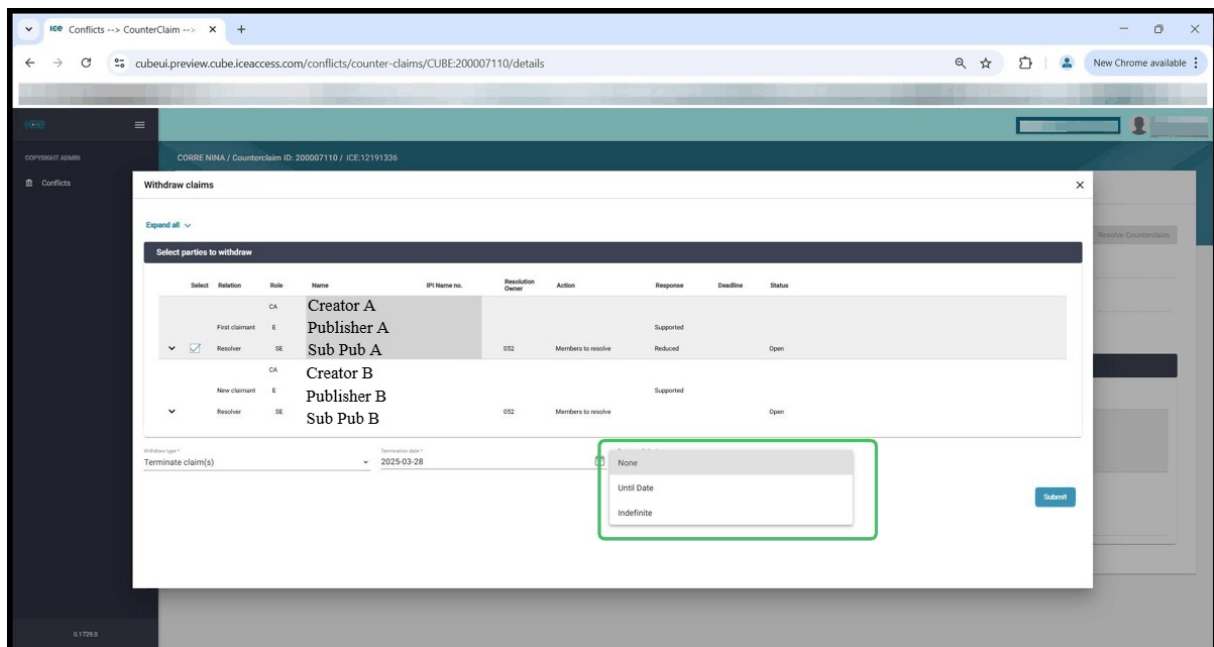

23. If the user selects the option to terminate claim(s), ICE will receive a request to terminate the claim(s) with a selected termination date and optional post term collection period.

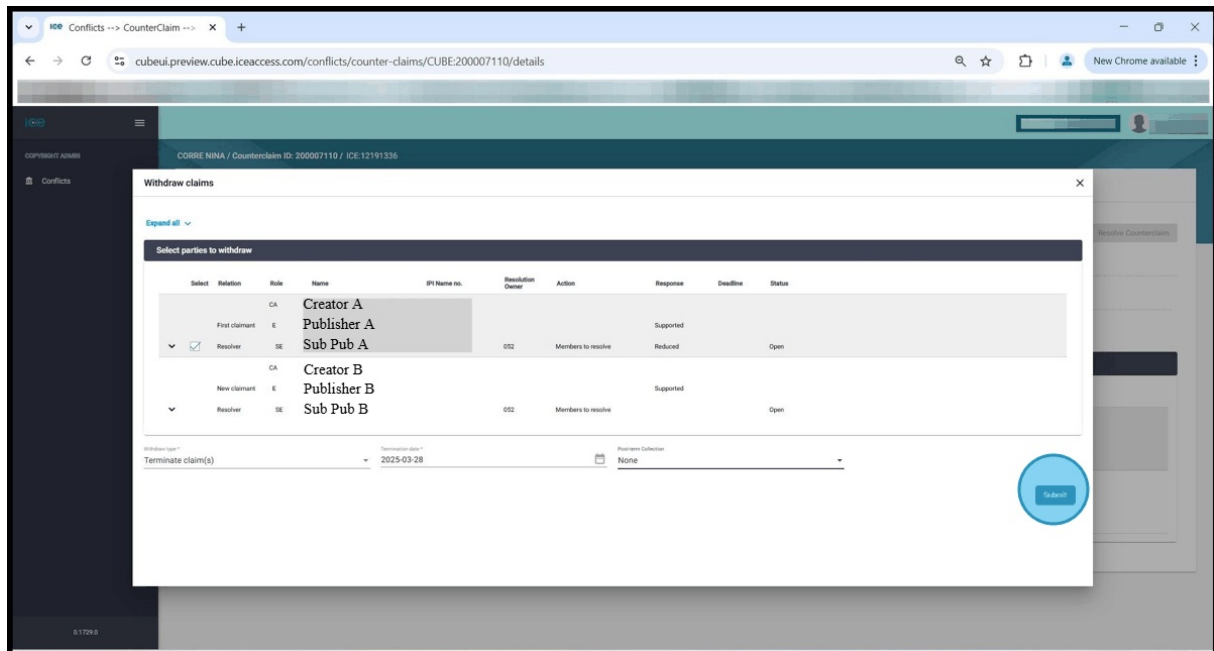

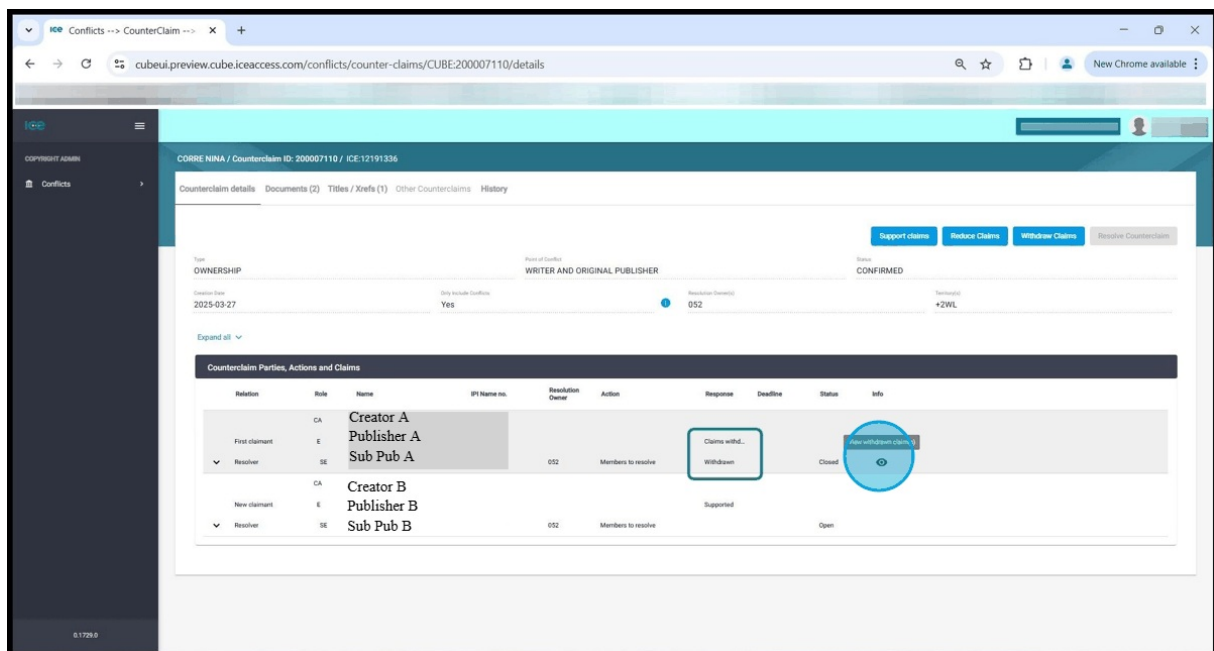

24. The post term collection is determined by selecting one of three options:
- none** (there is no post term),
  - until date** (post term collection runs within a specific time frame),
  - indefinite** (post term collection is open-ended). Please be aware that open post term collection periods might still overlap with the previously conflicting claim(s) and may result in a new Counterclaim.

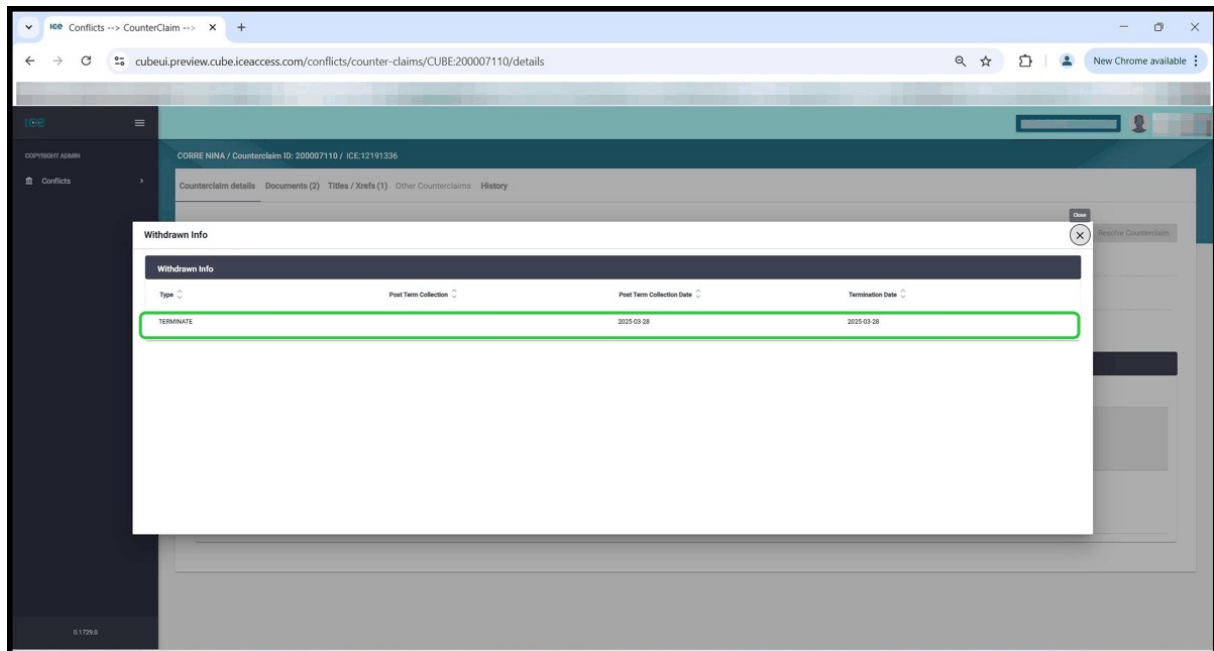

25. The user has to save claim withdrawal request.

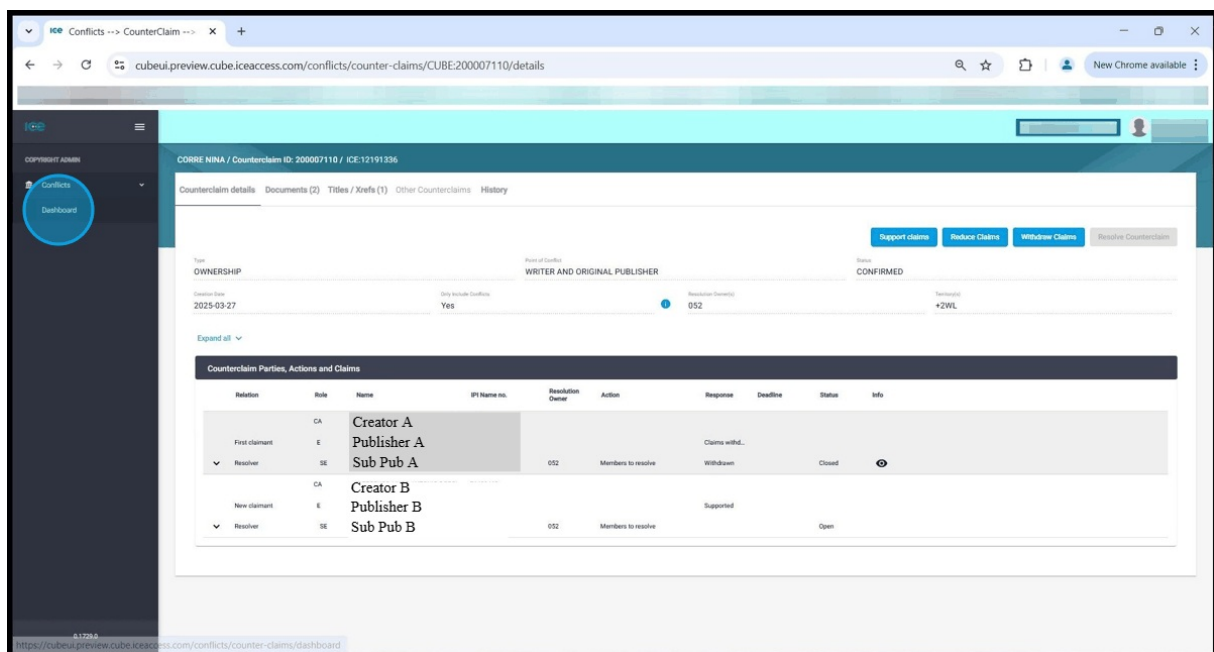

26. Immediately after the user has submitted the withdrawal, the Response on the selected action is updated to Withdrawn. The withdrawal request details are available under the eye icon in the Counterclaim Details.

27. Clicking on the eye icon allows the user to see the claim withdrawal request details in a pop-up window.

29. Navigating back to the Dashboard will allow the user to check the amendment requests that were sent to ICE.

30. Action on ICE section lists change requests by type (Claim Withdrawn, Claim not Supported, Claim Reduced).

The screenshot shows the 'Your Counterclaim Dashboard' with two summary boxes at the top. The 'Action on ICE (2)' box contains a table with the following data:

Action	Count
Claim Withdrawn	1
Claim Not Supported	0
Claim Reduced	1

Below these boxes is the 'Counterclaim List (10000)' table. The table has columns: Resolution Owner, Action Type, Response, Action Owner, Counterclaim ID, Type, Work key, Action Status, Deadline, Work Original Title, Creation Date, Counterclaim Status, and Scope. The first row shows a 'Withdraw claim' action for Counterclaim ID 00151985, which is 'Expired'.

31. E.g. if the user wishes to see all Claim Withdrawn action requests, the Counterclaim List will display all CCIDs with this type of request. The user can navigate to each CCID for more details.

This screenshot shows the same dashboard but with the 'Counterclaim List' filtered to show only one entry. The table has the same columns as the previous screenshot. The single row shows a 'Withdraw claim' action for Counterclaim ID 00151985, which is 'Expired'.

## FAQ

### How can I navigate to a work details?

If you have permissions, from the CC Details view, you can click on the button "Open work" in the header to navigate to the Work details.

...

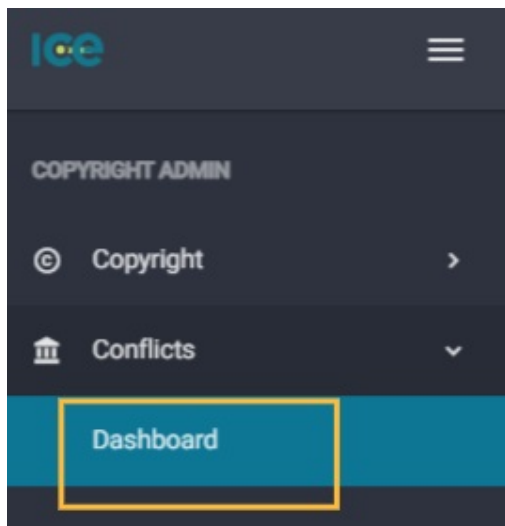

# How to Support Claims in Bulk?

Cube allows its users to *Support claims in bulk*. That feature is an efficient and time-saving tool which gives Publishers and Societies users the ability to **select multiple Counterclaim Actions** and **upload the same Supporting Documentation** to all of them in one go.

This is useful for situations where **multiple counterclaims exists that involve the same creator or publisher**.

## Support Claim in bulk process

1. Go to the **Counterclaim Dashboard**

2. Select and apply a filter

Before opening the Support claim in bulk mode, select and apply filter for the relevant counterclaims. For example, you can use the Quick filter 'Request to Support claim' and the name of Creator.

The screenshot shows the 'Counterclaim List (4)' interface. At the top, there are filter tabs: 'Work key / Cross Reference ID', 'Counterclaim ID', 'Work Title', 'Resolution Owner', 'CounterClaim Type', and 'CounterClaim Status' (set to 'Awaiting Reply, Supported (+1 other)'). Below these are filter fields for 'Action Type' (set to 'Request to support claim'), 'Action Status' (set to 'Open'), 'Action Owner', 'Creation Date', 'Action deadline from', and 'Action deadline to'. A 'Quick Filters' dropdown is set to 'Request to Support Claim'. A search bar for 'Creator Name' contains the text 'ashcroft'. Below the filters are 'Reset' and 'Apply Filter' buttons. The main table lists counterclaims with columns: Work key, Work Original Title, Counterclaim ID, Counterclaim Status, Deadline, Action (type), Response, Action Status, Action Owner, Resolution Owner, Scope, Type, Creation Date, and Action Id. The table contains four rows of data.

Work key	Work Original Title	Counterclaim ID	Counterclaim Status	Deadline	Action (type)	Response	Action Status	Action Owner	Resolution Owner	Scope	Type	Creation Date	Action Id
75371642	SUPPORT CLAIM IN BU...	200000380	Awaiting Reply	2025-11-...	Request to suppor...		Open	CONCORD C...	052	+2WL	Ownership cl...	2025-09-...	20000005140

### 3. Start Support claim in bulk mode

When you have a list of counterclaims to support, click on the '**Start Support claim in bulk mode**' button in the bottom right corner.

This screenshot is identical to the one above, showing the 'Counterclaim List (4)' interface with the same filters and table of counterclaims. The 'Start Support claim in bulk mode' button is highlighted in the bottom right corner of the interface.

### 4. Select Counterclaim Action(s)

Select one or multiple actions in the list.

### Good to know!

- **Selection box not enabled?** Only actions that needs to be supported can be selected, i.e. actions with the following action types 'Request to support claim' or 'Early Warning' and where the action status is 'Open'.
- **Select/De-select all is currently not available.** This option is currently under development to help reduce the amount of clicking.

5. Click on Upload button

When the user is happy with the selection of counterclaim actions, they need to click on the Upload button in the bottom right corner.

#### 8. Confirm bulk support

Confirm your selection by clicking the Confirm button.

Cancel Confirm

#### Tips!

If your list of files is long, you may need to **scroll down** to find the Confirm button.

The confirm button is disabled if no document has been selected to upload. You must **select at least one file**.

#### 9. Bulk support completed

When the update is completed, a dialogue window opens which informs the user about which Counterclaim IDs were successfully updated.

From the dialogue window, it's possible to click on a link to the Counterclaim Details page, to review the outcome on the counterclaim.

# How to Download Supporting Documentation?

## Note

This article is about downloading a supporting documentation that has already been submitted in the system. To see how to upload supporting documentation visit [How to Manage a Counterclaim at Publisher Level?](#)

When a document has been uploaded by a user as part of their Support Claim action, the document is stored on the Counterclaim with status 'Accepted'. Uploaded documents can be found in the page 'Documents'. From this page a Society, Resolver or ICE user can download documentation.

Here are the steps to download documentation:

1. Go to the Counterclaim Details page. If a document is attached to the counterclaim you have opened, the sub-tab "Document" will be bold and show number of attached documents.

The screenshot shows the 'Counterclaim Details' page for Counterclaim ID: 200019281 / ICE34279770. The 'Documents (2)' sub-tab is highlighted with a yellow box. The page displays various details including the type (OWNERSHIP), claimant (KUTZLE, BRENT MICHAEL), and resolution owner (UNIVERSAL/MCA MUSIC LIMITED). A table titled 'Counterclaim Parties, Actions and Claims' lists the parties and their roles.

Relation	Role	Name	IPI Name no.	Resolution Owner	Action	Response	Deadline	Status	Info
✓ New claimant / Resolver	CA	KUTZLE, BRENT MICHAEL	549556409	052	Members to resolve			Open	
	SE	UNIVERSAL/MCA MUSIC LIMITED	282430576						
	CA	KUTZLE, BRENT MICHAEL	549556409						
First claimant	E	ACORNMAN MUSIC	539233154			Supported			
✓ Resolver	SE	DOWNTOWN MUSIC PUBLISHING L.	548828602	052	Members to resolve			Open	

2. Click on “Documents” to open the sub-page. This page displays a list of all attached documents.

KIDS / Counterclaim ID: 200019281 / ICE:34279770

Activate Download

#### 4. Select at least one document to download

#### 5. Click on “Download Document/s” button in the bottom right corner.

#### 6. Download is available on your browser.

## FAQ

### Why is the “Download document/s” button disabled?

The button is disabled if no document has been selected to download, please make sure you have selected a document.

Why can't I download the other participants document/s?

Publisher users will always be able to download their own documentation regardless of counterclaim status. The other participants documentation will only be available for download when both parties have supported and the status of counterclaim is "Confirmed". See for more information.

When Counterclaim status is Confirmed, the Shared flag is set to "Y". This means the document is available to download by all parties.

# Counterclaim Types and Points of Conflicts

The following article presents a table describing all Counterclaims Types combined with different Point of Conflict.

Counterclaim Type	Point of Conflict	Description
Ownership	Writer and Original Publisher	Where more than one original publisher claims on behalf of the same creator for the same scope (territory(ies), rights, time).
	Publisher and Sub-Publisher	Where more than one publisher claims on behalf of the same publisher for the same scope.
Original*	Writer and Original Publisher	Where two conflicting claims to a previously unregistered share are received within 30 days of each other (publishers claiming on behalf of the same creator).
	Publisher and Sub-Publisher	Where two conflicting claims to a previously unregistered share are received within 30 days of each other (publishers claiming on behalf of the same publisher).
Authorship**	Between Creators	Where there is a conflict over who the creators of the work are, and the conflict has arisen from a creator who wishes to remove an existing creator from a work.
	New Creator	Where there is a conflict over who the creators of the work are, and the conflict has arisen from a new creator who wishes to be added to an already fully claimed work.
Author Share	Between Creators	Where there is no conflict over who the creators of the work are, but over the share splits between them.

Infringement***	Infringed Party(ies)	Where it is alleged that one work infringes another work.
Sample	Between Creators	Where there is a conflict between creators over a work containing a sample. The work has Category = COS (Composite of samples).
No Agreement***	Writer and Original Publisher	Where it is alleged that the creator has no valid publishing agreement with a publisher****
	Publisher and Sub-publisher	Where it is alleged that the original publisher has no valid sub-publishing agreement with a publisher.
Breach of Contract***	Writer and Original Publisher	Where a creator alleges a breach of contract with the publisher****
	Publisher and Sub-publisher	Where a publisher alleges a breach of contract with a sub-publisher.

**Specific Counterclaim Type rules/exceptions:**

\* If the Counterclaim Type is Original, all the conflicting parties are treated as New Claimants because of the short time frame between the conflicting registrations.

\*\* If the Counterclaim Type is Authorship, then the ICE user who identified the counterclaim will check if the registration from New Claimant was received within 6 Years. If the registration came in after more than 6 Years, this means that the new claim should be removed and no counterclaim is created.

\*\*\* The counterclaim types Infringement, No Agreement and Breach of Contract are only created upon request from Societies, and can be created on works that do not have an underlying conflict. ICE users do not identify these counterclaim types.

\*\*\*\* If the Counterclaim Type is No Agreement or Breach of Contract and Point of Conflict is Writer and Original Publisher, then the Creator(s) who causes the counterclaim is considered First Claimant and the Publisher is considered as New Claimant (this is an exception from the standard business rule which is to always treat the party who caused the counterclaim as New Claimant).

# Counterclaim Status

From the Counterclaim details view, you can check the counterclaim status as shown below.

The screenshot displays the 'Counterclaim details' view with a navigation bar at the top containing 'Counterclaim details', 'Documents', 'Titles / Xrefs (2)', 'Other Counterclaims', and 'History'. Below the navigation bar, there are four action buttons: 'Support claims', 'Reduce Claims', 'Withdraw Claims', and 'Resolve Counterclaim'. The main content area shows the following details:

Type OWNERSHIP	Point of Conflict WRITER AND ORIGINAL PUBLISHER	Status SUPPORTED
Creation Date 2019-08-22	Resolution Owner(s) 052	Territory(s) +SE +IS +LT +LV +EE +NO +NL +DK +BE +GB +MT +IE +CY +FI

Below the details, there is an 'Expand all' link with a downward arrow. At the bottom, a dark blue bar contains the text 'Counterclaim Parties, Actions and Claims'.

## Descriptions

Counterclaim statuses go as follow:

Counterclaim Statuses	Descriptions
Awaiting Reply	Both Claimants have been notified: The The New Claimant is asked to supply Supporting Documentation. First Claimant receives (or has access to) an early warning
Supported	New Claimant has supplied Supporting Documentation.  First Claimant has been notified & their response is awaited.
Confirmed	Supporting Documentation requirements have been met by all parties i.e. First Claimant has also submitted Supporting Documentation. Involved parties are advised to resolve the dispute.
Resolved	<p>New Claimant has not supplied Supporting Documentation within a specified timeframe;</p> <p>or</p> <p>Member has informed ICE or its Customer Society that it wishes to withdraw its claim;</p> <p>or</p> <p>The claim has been reduced by either Claimant, resolving the Counterclaim;</p> <p>or</p> <p>Resolution Owner has advised that the parties have reached an agreement or that there has been a Court Ruling resolving the dispute.</p>

# Counterclaim Module Enhancements

The goal of this page is to display the known and planned enhancements for future Cube's releases. This page is regularly reviewed and updated to reflect the latest status of development.

Counterclaim area	Description	Status (Done, In development, To-do)	Roadmap Quarter
Counterclaim Search/Dashboard (UI)  See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a>	<b>Issue:</b> PRS publishers wanted to be able to use Alliance Tunecode to search for counterclaims.  <b>Enhancement:</b> Improve search field for cross reference ids. Make it clearer to user how to search using IDs (e.g. Work key, Alliance Tunecode, NordDoc Work key, ISWC..).	Done	Q1 2025
Counterclaim Search/Dashboard (UI)  See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a>	<b>Issue:</b> Not possible to search for counterclaims using Titles.  <b>Enhancement:</b> Improve usability by allowing users to search for counterclaims using Work Title	Done	Q1 2025

<p>Counterclaim Search/Dashboard (UI)</p> <p>See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a></p>	<p><b>Issue:</b> We found that the Counterclaim search filter logic was a bit too restrictive in the scenario where a publisher user looked for counterclaims linked to their "owned" IPs. The problem was that the filter was only returning counterclaims linked to the child IPs that had the type 'PA/Patronym'.</p> <p>In the example we investigated for Sony, EMI MUSIC PUBLISHING LTD (NEW REGENCY PRODUCTIONS), IPI 774826794 is an 'OR/Other reference', and was filtered out because of this restriction.</p> <p><b>Enhancement:</b> Remove unnecessary restriction and give user ability to filter for counterclaims where they own the IP (regardless of the IP type).</p>	<p>Done</p>	<p>Q1 2025</p>
---	---	-------------	----------------

Counterclaim Search/Dashboard (UI)	<p><b>Issue:</b> For users who belong to larger publishing companies like Warner and Sony, the counts are not always meaningful because there is currently a limit when the number is higher than 10K the UI count just shows "(10 000)".</p> <p><b>Enhancement:</b> UI changed to show actual count of actions.</p>	Done	Q2 2025
Counterclaim Details (UI)	<p><b>Issue:</b> publisher users has to perform a separate work search to open Work details.</p> <p><b>Enhancement:</b> Enable "Open work" button for publishers to allow them to directly navigate to work details (only if user has permission to access both works and CC).</p>	Done	Q2 2025

Counterclaim Details (UI)	<p><b>Issue:</b> In some counterclaims, the counterclaim party with a terminated claim/post-term collection is not visible in the Counterclaim Details page which means that the user doesn't have complete view of the counterclaim participants when managing the counterclaim.</p> <p><b>Enhancement:</b> Show the counterclaim party with post-term collection, and their claims that are involved in the CC, in the Counterclaim Details page. To achieve this, we are adding a "Usage date" filter in Counterclaim Details.</p>	Done	Q2 2025
------------------------------	---	------	---------

<p>Counterclaim Search/Dashboard (UI).</p> <p>See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a></p>	<p><b>Issue:</b> It is not immediately clear to user that they can actually click on the categories in 'Action on me'/Action on ICE to apply a filter for those statuses, e.g. clicking on "Request to support claim" will return all counterclaims where the user needs to support claim and is an efficient way of filtering for counterclaims.</p> <p><b>Enhancement:</b> Make the Quick filters more visible by moving them to a better location in the Filter section. The dashboard cards will only be used to show volume counts.</p>	<p>Done</p>	<p>Q2 2025</p>
--	--	-------------	----------------

Support Claim (UI)	<p><b>Issue:</b> It can be unclear to users when they are required to support claim, e.g. they system allows users to support "Members to resolve" actions.</p> <p><b>Enhancement:</b> Disable "Support Claim" button when the member is not required to support claim, so that it is clearer to user what is expected of them in the counterclaim. The button should only be enabled when a counterclaim party is required to support claim.</p>	Done	Q2 2025
--------------------	---	------	---------

<p>Counterclaim Search/Dashboard (UI)</p> <p>See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a></p>	<p><b>Issue:</b> the "Action on me" and "Action on ICE" cards at the top of the Dashboard page are possible to hide/display but there is no visible button.</p> <p><b>Enhancement:</b> Add a visible button to the "Action on me" and "Action on ICE" cards at the top of the Dashboard page to show it is possible to show/hide them.</p>	<p>Done</p>	<p>Q2 2025</p>
---	--	-------------	----------------

Counterclaim Search/Dashboard (UI)	<p><b>Issue:</b> the columns in the Dashboard search result are not ordered in a logical way.</p> <p><b>Enhancement:</b> improve the default order of the search result columns (Work Key, Original Title,Counterclaim ID,Counterclaim Status,Deadline,Action Type...)</p>	Done	Q2 2025
See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a>			
Counterclaim Details (UI)	<p><b>Issue:</b> the counterclaim details table can contain a large amount of data, and it is not possible to filter the claims by territory.</p> <p><b>Enhancement:</b> Allow users to apply Territory filter to the claims in the table “Counterclaim Parties, Actions and Claims”, to reduce/increase number of rows which would make it easier to digest the information and analyze the claims.</p> <p>Users will also be able to use hotkeys to change the Territory.</p>	Done	Q2 2025

<p>Counterclaim Search/Dashboard (UI)</p> <p>See <a href="#">How to Search Counterclaims as a Publisher?</a> or <a href="#">Login and Search as a Society</a></p>	<p><b>Issue:</b> Not possible to search for counterclaims using Creator</p> <p><b>Enhancement:</b> Improve usability by allowing users to search for counterclaims using Creator(name/IPI)</p>	Done	Q2 2025
<p>Counterclaim Search/Dashboard (UI)</p> <p>See <a href="#">How to share CC search results?</a></p>	<p><b>Issue:</b> When the user has applied a filter, opens counterclaim in the same tab and then navigates back to the search, the search filter are not kept so the user has to re-enter and apply the filter again.</p> <p><b>Enhancement:</b> When the users goes back to the search, the previous search filter is kept so that the user does not have to enter the same search criteria again. The filter settings will also be captured in the URL. This will allow the user to share their filter settings by copying the URL and sharing it with another user in their organisation.</p>	Done	Q2 2025

Counterclaim Search/Dashboard (UI) - Manage counterclaim	<p><b>Issue:</b> User can only support claim or withdraw claim for one counterclaim at a time, which can be time consuming for the publishers who has large volume of counterclaims to manage.</p> <p><b>Enhancement:</b> Give publisher users ability to select multiple counterclaims in the Dashboard page to Support claim or Withdraw claim. When the user submits the response the statuses of each selected counterclaim is updated accordingly. When supporting claim, the selected document(s) are uploaded to all the selected counterclaims.</p>	In development	Q3 2025
--	---	----------------	---------

Counterclaim Search/Dashboard (UI)	<p><b>Issue:</b> Publisher user cannot tell how many unique counterclaims (i.e. Counterclaim IDs) they are involved in.</p> <p><b>Enhancement:</b> Show total number of unique Counterclaims</p>	To-do	Q3 2025
Counterclaim notifications (Email)	<p><b>Issue:</b> Sub-publishers who are linked to the Resolver may not always be aware that their claim is affected by an active counterclaim or has been removed as per a counterclaim resolution. We presume that the Resolver keeps their sub-publishers informed externally, yet this may not happen every time, which could result in queries or complaints to Society or ICE.</p> <p><b>Enhancement:</b> To improve the transparency of the counterclaim process, sub-publishers should receive email notifications whenever a counterclaim is created, updated, or resolved, along with the outcomes pertaining to their claims. For instance, if their sub-publishing claim was removed as a result of the Resolver withdrawing or failing to support claim within the deadline.</p>	To-do	Q4 2025

Counterclaim Details (UI)	<p><b>Issue:</b> No "Go back" button in Counterclaim details page.</p> <p><b>Enhancement:</b> add "Go back" button to enable user to return to search list. Workaround is that user uses the "go back" button in their browser.</p>	To-do	Q4 2025

Counterclaim Search/Dashboard (UI)	<p><b>Issue:</b> The headers of the counterclaim dashboard table are not fixed, and as users scroll through a large table, they may lose their context.</p> <p><b>Enhancement:</b> Fix the table headers, so that user always have the context and knows what data they are looking at while scrolling.</p>	To-do	Q4 2025
Counterclaim Search/Dashboard (UI)	Make the linked Creator visible in the Counterclaim list	To-do	Q3 2025
Counterclaim Search/Dashboard (UI)	Make the “other” Resolver visible in the counterclaim list. If multiple other resolvers exist, display them all in a tooltip message when use hovers over the field.	To-do	TBC
Counterclaim Search/Dashboard (UI)	<p><b>Issue:</b> Not possible to search for CC using Publisher (only by Action Owner)</p> <p><b>Enhancement:</b> Improve usability by allowing users to search for CC using Publisher Name / IP</p>	To-do	Q3 2025
Counterclaim Search/Dashboard (UI)	Give user ability to filter for CC using Resolution Date.	To-do	TBC

Counterclaim Search/Dashboard (UI) - Manage counterclaim	Give publisher users ability to select multiple counterclaims in the Dashboard page to Withdraw claim When the user submits the response the statuses of each selected counterclaim is updated accordingly. When withdrawing claim in bulk, the response status is updated accordingly on each selected counterclaim and a ICE action is generated for removal of the claims.	To-do	TBC
Counterclaim Details (UI)	Counterclaim Details page: Show summary of Total Claims	To-do	TBC
